⊠umtplus

The most comprehensive and reliable software solution to simplify and optimize any work measurement study.

This innovative product was developed by industry experts, **Laubrass Inc**., to replace the lengthy process of using stopwatches and note pads, eliminating the tedious task of data entry to save you time and money.

UmtPlus® is an essential tool to **identify** waste, **optimize** your resources, and **increase** your productivity. It's easy, we'll show you how.

BETTER RESULTS IN LESS TIME

Collecting data on a handheld computer with **UmtPlus®** **is more than 50% faster** than using a stopwatch. Furthermore, by eliminating the step of manual data entry, you minimize the risk of potential error.

▶ Traditionally for every hour on the floor, it took three hours to input the data. **UmtPlus®**, automates the data entry phase, saving you all that time and even guarantees that you will have more reliable results.

YOUR DATA, YOUR WAY

Customizable software that will look and function the way you need it to. Whether it is for time studies, random studies, work studies or self sampling you use what works best for you.

▶ With a simple click your data can be uploaded to any existing data base or excel sheet.

▶ The same tool that any employee can learn to use in a matter of minutes, also provides expanded analytical capabilities for engineers.

IMPLEMENT YOUR SOLUTIONS SOONER

Optimize your resources by understanding where and how time is being spent. Doing work measurement studies with **UmtPlus®**, you can easily identify opportunities for improvement.

▶ By quickly understanding where time is wasted you will save money.

CUSTOMIZE YOUR SAMPLING OR TIME STUDY

EASILY CAPTURE ACCURATE DATA

INSTANTLY EXPORT OR PRINT YOUR STATISTICS

ANALYZE AND SHARE GRAPHS AND REPORTS

QUICKLY TRANSFER RESULTS FOR ANALYSIS

SAVE MORE THAN 50% of the time you spend on TIME STUDIES.

Because time is important

⊠umtplus

The UmtPlus® package includes three comprehensive programs, making this the ultimate tool for performing work measurement studies.
UMT MANAGER: **Create**, **Edit** and **Manage** any number of configurations from a PC

▸ Possibility of virtually unlimited elements per configuration with up to 16 levels

▸ Over 51 programmable categories

▸ Use colors for helpful visuals

▸ Transfer and access configurations easily

▸ Set statistical parameters and confidence intervals

▸ Classify each element as Value Added, Non Value Added,or Necessary

Quick programming option or advanced features for more in depth studies

UMTPLUS: Efficient Data collection on your MOBILE DEVICE

▸ Times are recorded to 1/100th of a second

▸ View and edit all observations at any time while on the floor

▸ Use multiple PDAs to collect data

▸ Enter up to eight descriptive headers for each study

▸ GPS add on capabilities

▸ Add numeric codes and speed ratings automatically or manually as you go

▸ Add comments and notes to your observations manually or automatically

▸ View the designated amount of observations needed to respect statistical parameters

STAT UMT: Perform data analysis, Reports and Graphs.

▸ Instantly view reports and graphs: list of actions; summary; normalized summary; graph by type and or category; pareto charts; compilation charts, takt time chart, time distribution chart, pie charts, stack charts, and line balancing charts.

▸ Can be used to transfer data to your existing **excel sheets** or directly to an ODBC data base

▸ Combine compatible studies

▸ Easily edit or manipulate data

▸ Numerous options to help you share results automaticaly and simultaneously with your organization
